you pay

Tax relief –
your
contributions
get tax relief

Investment
choices –

you can choose what
funds to invest in –
some with higher risks/
greater potential
rewards than others

Use your AVC to get:

- up to 100% tax-free cash lump sum*
- additional LGPS income
- guaranteed regular income for life (an annuity)
- both lump sum and income

**Conditions apply.*

What are AVCs?

AVCs allow you to pay more to build up extra savings for your retirement. When you save AVCs, you pay money into a separate AVC plan in addition to the main Local Government Pension Scheme (LGPS). You build up a pot of money that you use to provide additional benefits to your main LGPS benefits.

Your AVC plan becomes payable when you take your main LGPS benefits. All local government pension funds have an arrangement with an AVC provider (often an insurance company or building society) in which you can invest money in funds managed by the AVC provider.

These arrangements are known as **in-house AVCs** and are referred to as AVCs in this guide.

AVC contributions are taken directly from your pay before your tax is worked out, so, if you pay tax, you receive tax relief automatically.

You have your own personal account that, over time, builds up with the contributions you pay in. The amount in your account depends on how long you pay AVCs for, the impact of charges and how well the fund(s) you invest in perform. You choose how the money in your AVC plan is invested.

Your AVC plan is an investment and the value can go down as well as up. You may not get back what you put in. You can pay up to 100% of your *pensionable pay*¹ (subject to other deductions made by your employer) into an AVC. You may wish to get independent financial advice about taking out an AVC.

If you are interested in paying AVCs, you should contact the West Midlands Pension Fund's in-house provider Prudential for more information on **0345 600 0343** or www.mandg.com/pru/workplace-pensions/employees/public-sector-avc-schemes/local-gov

How do AVCs work?

How much can I pay in?

You can pay up to 100% of your pensionable pay (subject to other deductions made by your employer) into an AVC.

Flexible contributions

You can choose to pay a fixed amount or a percentage of your pay, or both, into an AVC – as long as it does not exceed 100% of your pay.

AVCs are taken from your pay, just like your normal pension contributions. Deductions start from the next available pay period after you've set up the AVC. You may vary your contributions or stop payment at any time while you are paying into the LGPS.

You can pay AVCs if you are in the Main or 50/50 section of the LGPS.

Get tax relief

Your LGPS and AVC contributions are deducted before your tax is worked out, so, if you pay tax, you receive tax relief automatically through the payroll.

Although most people will be able to save as much as they wish into an AVC, the amount of pension tax relief you can receive is limited. See the 'Tax controls and your pension' section at the end of this guide for more information.

How the tax relief works:

AVC contributions are taken from your pay before tax. Any money you would normally pay as income tax automatically goes into your AVC pot instead. If you pay tax at a higher rate, your tax savings will be higher. If you don't pay tax, you won't benefit from tax savings.

For a basic rate tax payer

A **£100** investment in your plan only costs you **£80**.

For a higher rate tax payer

A **£100** investment in your plan only costs you **£60**.

How you save with an AVC

Prudential will set up your own personal account. Your account builds up over time with your contributions and any investment returns you make. The amount in your account will depend on how long you pay AVCs for, the impact of charges and how well the fund(s) you invest in perform.

You choose how the money in your AVC plan is invested. The investments on offer will have varying risk levels – the

higher the risk, the higher the potential rewards. The lower the potential rewards, the lower the risk. You are able to spread your investments (and risks) over a number of investment areas such as equities (shares), bonds, property and cash. Each have their own risk/potential rewards.

As with all investments, the value may go up or down and you may not get back what you put in.

What can I do with my AVC?

This section outlines how you can use your AVC plan in the LGPS and the option of transferring your AVC plan to a different pension arrangement.

When you take your main LGPS benefits, you can use your AVC to:

1 Buy a regular income that is guaranteed to be paid for the rest of your life

You can use your AVC plan to buy a lifelong, regular income (also known as an annuity) that is guaranteed to be paid for as long as you live. Annuities offer different features that may be of interest to you, such as improved terms if you are in poor health and annual increases to keep up with the cost of living.

When you buy an annuity, you can usually take some of your AVC plan as a tax-free lump sum at the same time and use some or all of the balance to buy an annuity. An annuity is paid completely separately from your LGPS benefits.

The amount of annuity depends on several factors, such as interest rates and your age. As a rule of thumb, the older you are when you take out an annuity, the higher the income you'll get.

You also have some choice over the type of annuity. For example, whether you want a level annuity that provides a higher income to start with, but the payments will stay the same for life, or an escalating annuity that will start at a lower rate but will increase over time to keep up with the cost of living. You can also choose whether you want to provide for dependants' benefits in the event of your death.

You don't have to buy an annuity from your AVC provider – it's really important that you shop around to get the best 'annuity rate' based on your personal circumstances and the annuity features you're looking for.

You would normally buy an annuity at the same time as you take your main LGPS benefits. However, if you left the LGPS before 1 April 2014, you can leave your AVC plan invested and use it later.

2 Buy a top-up LGPS pension

If you paid into the LGPS **on or after 1 April 2014**, you can use some or all of your AVC plan to buy extra pension from the LGPS. The extra pension you buy will increase in line with the cost of living.

If you take this option, your dependants will automatically be provided with extra pension in the event of your death.

3 Take some or all of your AVC as a single tax-free lump sum

You can take some or all of your AVC plan as a tax-free lump sum, provided that:

- When added to any lump sum you take from your main LGPS benefits, the total tax-free lump sum does not exceed 25% of the overall value of the LGPS benefits you are taking at that particular time, including the value of your AVC plan;
- Your maximum tax-free lump sum does not exceed 25% of the lifetime allowance (£268,275 for the tax year 2023/24) or 25% of your remaining *lifetime allowance*³, if you have previously taken payment of any benefits.

- **Buy extra membership in the LGPS**

This only applies if you started paying into your AVC plan **before 13 November 2001**.

If this was the case, you may be able in certain circumstances (such as flexible retirement, retirement on ill-health grounds, or on stopping payment of your AVCs before retirement) to convert your AVC plan into extra LGPS membership

in order to increase your LGPS benefits.

The extra membership will attract a pension of 1/60th of your final pay for each year of membership purchased.

- **Leave your AVCs invested and use them later...**

...but only if you left the LGPS before 1 April 2014

If you left the LGPS before 1 April 2014, you can choose not to take your AVC plan when you take your main LGPS benefits. You can leave your AVC plan invested and use it at a later date; however, you must take it by the age of 75.

If you do not take your AVC plan at the same time as your main LGPS benefits, you will be restricted to taking a maximum of 25% of your AVC plan as tax-free cash and buying an annuity with the remainder when you do take it.

If you paid into the LGPS on or after 1 April 2014, you must take your AVC plan at the same time as you take your main LGPS benefits.

- **You may be able to transfer your AVC fund to another pension scheme or arrangement**

You can transfer your AVC plan to one or more different pension arrangements even if you are still

Some warnings and things to think about

As with all financial decisions, you should think about your own personal circumstances. You should also consider that money from a pension counts towards any income tax that you might have to pay. Transferring your benefits from the LGPS could adversely affect yours and any dependant's eventual retirement income. If you are thinking of transferring your AVC plan, you should be aware that scammers operate in these markets and are after your pension. You can read more about how to protect yourself from scammers at:

www.thepensionsregulator.gov.uk/en/contact-us/scheme-members-who-to-contact

an active member of the main LGPS scheme. However, you must stop paying AVCs in any LGPS employment you hold before you can transfer your AVC plan. If you hold more than one AVC plan, you must transfer all of your plans (even if they are held with different LGPS funds).

Different pension providers offer different options for how you can use your AVC, including the option to buy regular income (an annuity). By transferring out to one or more different pension arrangements, you may be able to access options that are not available under the LGPS rules, such as:

- take a number of lump sums at different stages. Usually, the first 25% of each cash withdrawal from your pot will be tax-free with the rest subject to tax.
- take the entire pot as cash in one go. Usually, the first 25% will be tax-free with the rest subject to tax. Remember, it is possible to take your entire LGPS AVC plan as a tax-free lump sum, subject to certain conditions, if you leave it in the LGPS and take it at the same time as your main LGPS benefits.

- provide a flexible retirement income. This is known as flexi-access drawdown. You are normally allowed to take a tax-free lump sum of up to 25% then set aside the rest to provide taxable lump sums as and when, or a regular taxable income.

There may be tax implications associated with accessing your benefits in the ways described. The income from a pension is taxable; the rate of tax you pay depends on the amount of income that you receive from pensions and from other sources.

The different options mentioned have different features, different rates of payment, different charges and different tax implications.

Other considerations

What happens to my AVC if I take flexible retirement?

If your AVC plan started before 13 November 2001, your AVC contract will end when you flexibly retire and you will have to use your entire AVC plan in one of the ways outlined earlier in this leaflet at the same time as you take your flexible retirement benefits.

If your AVC plan started after 13 November 2001, you can choose to take none, some of or your entire AVC plan in one of the ways outlined earlier in this leaflet, and if you wish, continue paying AVCs.

What happens to my AVC if I leave before retiring?

If you leave before retirement, your contributions will stop when you leave. The value of your AVC plan will continue to be invested until it is paid out. You can transfer your AVC plan to one or more different pension arrangements or take it at the same time as your LGPS benefits.

What happens to my AVC if I die before taking it?

If you die before taking your AVC plan, it will be payable as a lump sum. Your AVC provider will pay the amount due to your LGPS administering authority who will then make payment in accordance with the scheme rules.

If you have elected to pay AVCs for the purchase of life cover, a death in service lump sum and/or dependants' pension will be payable.

I have previous AVCs with the LGPS. Can I transfer them if I rejoin the LGPS?

If you have paid AVCs to the LGPS in England or Wales, the accrued (built up) value of your AVCs must normally be transferred to an AVC arrangement offered by your new LGPS administering authority, if you combine your main scheme benefits.

Shared cost AVCs (SCAVC)

A shared cost AVCs is an AVC plan arranged through the LGPS (ie an in house AVC) that both you and your employer contribute to. Your employer can choose if they wish to offer SCAVCs.

Other ways to increase your pension benefits

Buy extra pension in the LGPS – additional pension contributions (APCs)

If you are in the main section of the LGPS, you can pay additional contributions to buy up to £7,579 (for 2023/24) of extra pension. You can choose to pay for the extra pension by spreading the payment of the additional pension contributions (APCs) over a number of complete years or by paying a lump sum.

See the national LGPS member website for more information on APCs – www.lgpsmember.org

Tax relief is available on all pension contributions up to 100% of your taxable earnings.

Free-standing additional voluntary contributions (FSAVCs)

These are similar to in-house AVCs but are not linked to the LGPS in any way. With FSAVCs, you choose a provider, usually an insurance company. You may want to consider their different charges, alternative investments and past performance when you do this.

You choose how much to pay into an FSAVC arrangement. You can pay up to 100% of your UK taxable earnings, less your normal pension contributions.

How much income your FSAVC will provide depends on how long you pay FSAVCs for, the impact of charges and

how well the fund(s) you invest in perform. Your FSAVC plan is an investment and the value can go down as well as up. You may not get back what you put in. You can choose which investment route you prefer.

You can usually take up to 25% of the value of your FSAVC fund as a tax-free lump sum.

You can also pay FSAVCs to provide additional life cover. Your LGPS membership already gives you cover of three times your assumed pensionable pay if you die in service, but you can increase this amount via an FSAVC or use the FSAVC to provide additional dependants' benefits on your death in service. This may be subject to satisfactory completion of a medical.

Personal or stakeholder pensions

You can make your own arrangements to pay into a personal pension plan or stakeholder pension scheme at the same time as paying into the LGPS. With these arrangements you choose a provider. You need to consider their charges, alternative investments and past performance when you do this.

It is advisable to get financial advice before taking out any form of additional pension saving.

Tax controls and your pension

One of the benefits of saving with a registered pension scheme, such as the LGPS, is that you receive tax relief on the contributions you pay into the scheme. Her Majesty's Revenue and Customs (HMRC) restricts the amount of tax relief you can receive.

Most people will be able to save as much as they wish as their pension savings will be less than the allowances. However, if you are thinking of making additional pension savings, such as AVCs, it is important that you are aware of the restrictions.

Limits on how much you can pay

There is no overall limit on the amount of contributions you can pay, but tax relief will only be given on contributions up to 100% of your taxable earnings in a tax year.

Limits on how much pension you can build up

The two controls set by HMRC are the annual allowance and the lifetime allowance.

1) Annual allowance

This is the amount that the value of your pension benefits may increase by in a year without you having to pay a tax charge. For the 2023/24 tax year, the standard annual allowance is £60,000. However, if you are high earner your annual allowance could be lower than £60,000 due to 'tapering'. For money purchase arrangements, such as AVC schemes, the annual allowance you use is worked out by adding the total contributions paid by you, or on your behalf, over the tax year.

For defined benefits arrangements, such as the main LGPS scheme, the amount of annual allowance is determined by working out the growth in the value of your pension over the tax year.

If your LGPS pension savings in a year ending 5 April exceed the standard annual allowance, your LGPS pension fund will inform you by 6 October.

You can find out the value of your increase in pensions saving for each of the last three years by asking your scheme for a Pension Savings Statement.

For more information about the annual allowance, including information on 'tapering' for high earners and the implications if you have taken defined contribution benefits flexibly on or after 6 April 2015, AA factsheet and useful tools available at www.lgpsmember.org/your-pension/the-essentials/tax/#the-annual-allowance

2) Lifetime allowance

The lifetime allowance is £1,073,100 for 2023/2024. However, there are plans to abolish the lifetime allowance from 6 April 2024.

For more information on lifetime allowance, including tools to check your allowance, visit: www.lgpsmember.org/ats/about-tax.php

For more information about annual allowance, view the short video at www.lgpsmember.org/more/Videos.php

Tax rules limit how much pension you can build up each year without having to pay a tax charge. This video explains how the annual allowance works.

For more information about lifetime allowance view the short video at www.lgpsmember.org/more/Videos.php

Tax rules limit how much pension you can build up over your lifetime without having to pay a tax charge. This video explains how the lifetime allowance works.

Get some advice...

Deciding how to use your AVC plan is one of the most important financial decisions you are likely to make.

We recommend that you get guidance and/or independent financial advice to help you decide which option is most suitable for you.

Money Helper offers impartial money and pensions guidance that is backed by UK government and free to use. MoneyHelper has brought together the support and services of three government-backed financial guidance providers: The Money Advice Service, the Pensions Advisory Service and Pension Wise call **0800 138 7777**

The Financial Conduct Authority (FCA) is the regulatory body for independent financial advisers.

www.fca.org.uk

The Personal Finance Society is the professional body for financial advisers. It provides access to appropriately qualified members who commit to the highest professional and ethical standards.

www.thepfs.org

Unbiased is a website listing regulated and independent financial advisers, mortgage brokers, solicitors and accountants. It checks that everyone is registered with the Financial Conduct Authority (FCA).

www.unbiased.co.uk

As part of the local government pension regulations, each local government scheme must provide an in-house additional voluntary contribution AVC provider. The West Midlands Pension Fund's in-house provider is the Prudential.

For more information on AVCs, please contact Prudential **0345 600 0343** or visit **www.mandg.com/pru/workplace-pensions/employees/public-sector-avc-schemes/local-gov**

Terms used in this guide

¹ Pensionable pay

Pensionable pay is the pay on which you normally pay pension contributions. Typically, pensionable pay includes your normal salary or wages, bonuses, overtime (both contractual and non-contractual), maternity, paternity, adoption and shared parental pay, shift allowance and additional hours payments if you work part-time.

² Assumed pensionable pay

Assumed pensionable pay is a notional pensionable pay figure used to ensure your pension is not affected by any pay reduction due to a period of sickness or injury on reduced contractual pay or no pay, relevant child-related leave or reserve forces service leave.

³ Lifetime allowance

The lifetime allowance is the total value of all pension benefits you can have without triggering an excess benefits tax charge. The lifetime allowance covers any pension benefits you have in all tax registered pension arrangements, not just the LGPS. The lifetime allowance limit for 2023/24 is £1,073,100. However, there are plans to abolish lifetime allowance in 2024.

Disclaimer

This leaflet is for employees in England or Wales and reflects the provisions of the LGPS and overriding legislation at the time of publication in April 2023. The government may make changes to overriding legislation and, after consultation with interested parties, may make changes in the future to the LGPS. This leaflet cannot cover every personal circumstance. In the event of any dispute over your pension benefits, the appropriate legislation will prevail. This leaflet does not confer any contractual or statutory rights and is provided for information purposes only.
